

NANO HYBRID GLASS

PREMIUM SCREEN PROTECTION

INSTALLATION GUIDE

ENGLISH

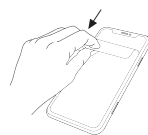

In the box:

- Nano Hybrid Glass – screen protector (1)
- Wet wipe (2)
- Microfiber cloth (3)
- Guide stickers (4)
- Dust-removal sticker (5)

Installation guide:

Step 1

For optimal installation, find a clean table or any other big surface. If you already have some kind of protection on your screen, you can remove it now.

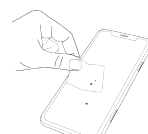

Step 2

Clean the whole screen with the wet wipe (2) and microfiber cloth (3).

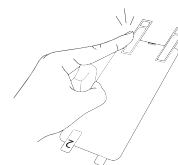

Step 3

Remove any remaining dust with the dust-removal sticker (5).

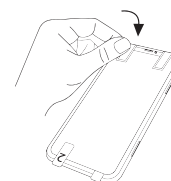

Step 4

Apply two guide stickers (4) onto the front side of the screen protector (side marked as No. 2).

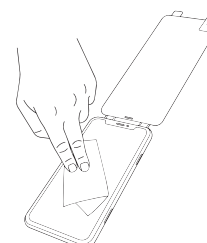

Step 5

Carefully align the screen protector with your screen. Use a camera, speaker, or the buttons as your reference points. Stick the guide sticker over the upper part of your phone.

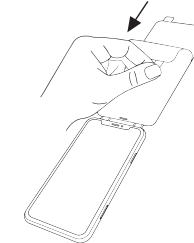

Step 6

Flip the screen protector. To ensure the screen is completely clean, wipe it with the microfiber cloth once again.

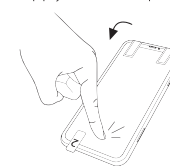

Step 7

Peel the film from the back side of the screen protector using the sticker marked as No. 1.

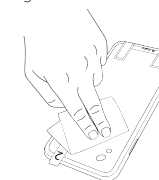

Step 8

Carefully flip and apply the screen protector onto the screen.

Step 9

Using the microfiber cloth, carefully press out bubbles towards the closest edge of the screen. Remove all stickers.

NANO HYBRID GLASS

PREMIUM SCREEN PROTECTION

UPUTSTVO ZA MONTAŽU

HRV/BiH/SRB

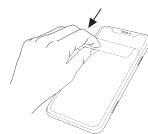

Sadržaj:

- Nano Hybrid Glass – Zaštitno staklo (1)
- Vlažna maramica (2)
- Mikrofiber krpica (3)
- Pomoćne naljepnice / nalepnice (4)
- Naljepnica / nalepnica za uklanjanje prašine (5)

Uputstvo za montažu:

Korak 1

Kako bi neometano i precizno postavili zaštitno staklo, cijeli / ceo proces izvodite na čistom stolu ili nekoj drugoj većoj površini. Ukoliko na uređaju već imate određenu zaštitu (folija, maskica), sada je uklonite.

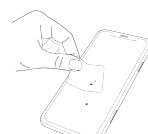

Korak 2

Ekran uređaja očistite vlažnom maramicom (2). Nakon toga, manje nečistoće uklonite mikrofiber krpicom (3).

Korak 3

Preostale čestice prašine očistite naljepnicom / nalepnicom za uklanjanje prašine (5).

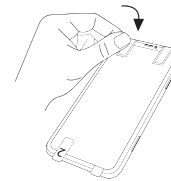

Korak 4

2 kom. naljepnica / nalepnica (4) do polovice / polovine njihove dužine, zalijepite / zalepite na gornju stranu zaštitnog stakla (strana na kojoj je naljepnica / nalepnica Br. 2).

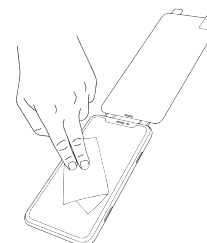

Korak 5

Prislonite zaštitno staklo na ekran vašeg uređaja i poravnajte ga s referentnim točkama / tačkama - kamerom, zvučnikom, tipkama / tasterima. Zalijepite / zalepite pomoćne naljepnice / nalepnice preko gornje strane uređaja.

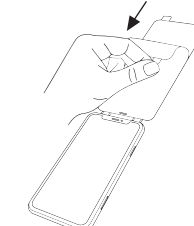

Korak 6

Preklopite zaštitno staklo na stranu. Još jednom prebršite ekran mikrofiber krpicom kako biste bili sigurni da je potpuno čist.

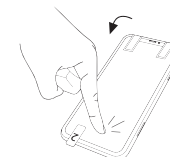

Korak 7

S donje strane zaštitnog stakla uklonite zaštitnu foliju s naljepnicom / nalepnicom Br. 1.

Korak 8

Pazeći na pomoćne naljepnice / nalepnice, aplicirajte zaštitno staklo na ekran uređaja.

Korak 9

Mjehuriće / mehuriće zraka / vazduha ispod zaštitnog stakla pažljivo istisnite prema najbližem rubu / ivici koristeći mikrofiber krpicu. Uklonite sve naljepnice / nalepnice.
